Bioenergetics
(including Reviews on Bioenergetics)
Vol. 1059, 1991

Cumulative Contents

Review

Calcium activation of photosynthetic water oxidation
C.F. Yocum (U.S.A.) 1

Regular Papers

Evidence that localized energy coupling in thylakoids can continue beyond the energetic threshold onset into steady illumination
M. Renganathan, R.S. Pan, R.G. Ewy, S.M. Theg, F.C.T. Allnutt and R.A. Dilley (U.S.A.) 16

Nigericin and hexylamine effects on localized proton gradients in thylakoids
F.C.T. Allnutt, R. Ewy, M. Renganathan, R.S. Pan and R.A. Dilley (U.S.A.) 28

Structural characterization of heme sites in spinach cytochrome b_6f complexes: a resonance Raman study
J.D. Hobbs, M. Wynn, D.J. Nunez, R. Malkin, D.B. Knaff and M.R. Ondrias (U.S.A.) 37

Role of mitochondria in hepatic fructose metabolism
A.R. Grivell, H.J. Halls and M.N. Berry (Australia) 45

On the nature of the mitochondrial proton leak
G.C. Brown and M.D. Brand (U.K.) 55

Stark effect spectroscopy of bacteriochlorophyll in light-harvesting complexes from photosynthetic bacteria
D.S. Gottfried, J.W. Stocker and S.G. Boxer (U.S.A.) 63

Stark effect spectroscopy of carotenoids in photosynthetic antenna and reaction center complexes
D.S. Gottfried, M.A. Steffen and S.G. Boxer (U.S.A.) 76

Quantitative analysis with physicochemical substituent and molecular parameters of uncoupling activity of substituted diarylamines
Z.-j. Guo, H. Miyoshi, T. Komyoji, T. Haga and T. Fujita (Japan) 91

Extracellular generation of active oxygen species catalyzed by exogenous menadione in yeast cell suspension
S. Yamashoji, T. Ikeda and K. Yamashoji (Japan) 99

The influence of membrane localized protons on energy utilization at the reaction centres of Photosystem II in isolated thylakoids
A.M. Ehrenheim, G. Forti and G. Finazzi (Italy) 106

Exciton interactions in the light-harvesting antenna of photosynthetic bacteria studied with triplet-singlet spectroscopy and singlet-triplet annihilation on the B820 subit form of *Rhodospirillum rubrum*
F. van Mourik, C.J.R. van der Oord, K.J. Visscher, P.S. Parkes-Loach, P.A. Loach, R.W. Visschers and R. van Grondelle (The Netherlands, U.S.A.) 111

Review

The regulation and nature of the cyanide-resistant alternative oxidase of plant mitochondria
A.L. Moore and J.N. Siedow (U.K., U.S.A.) 121

Regular Papers

Characterization of genes that encode subunits of cucumber PS I complex by N-terminal sequencing
Y. Iwasaki, H. Ishikawa, T. Hibino and T. Takabe (Japan) 141

Characterization of the cross-linked complex formed between ferredoxin-$NADP^+$ reductase and flavodoxin from *Anabaena* PCC 7119
J.J. Pueyo and C. Gómez-Moreno (Spain) 149

The 'lysine cluster' in the N-terminal region of Na^+/K^+-ATPase α-subunit is not involved in ATPase activity
T. Ohta, S. Noguchi, M. Nakanishi, Y. Mutoh, H. Hirata, Y. Kagawa and M. Kawamura (Japan) 157

A picosecond time-resolved fluorescence study on the biliprotein, phycocyanin 645
H. Malak and R. MacColl (U.S.A.) 165

Arginine residues in the D2 polypeptide may stabilize bicarbonate binding in photosystem II of *Synechocystis* sp. PCC 6803
J. Cao, W.F.J. Vermaas and Govindjee (U.S.A.) 171

Identification and characterisation of EPR signals involving Q_B semiquinone in plant Photosystem II
B.J. Hallahan, S.V. Ruffle, S.J. Bowden and J.H.A. Nugent (U.K.) 181

Characterisation of 'fast' and 'slow' forms of bovine heart cytochrome-*c* oxidase
A.J. Moody, C.E. Cooper and P.R. Rich (U.K.) 189

Evidence for a chemical reaction of hydroxylamine with the photosynthetic water splitting enzyme S in the dark – possible states of manganese and water in the S cycle
H. Kretschmann, S. Pauly and H.T. Witt (F.R.G.) 208

Polypeptide composition of the Photosystem I complex and the Photosystem I core protein from *Synechococcus* sp. PCC 6301
N. Li, P.V. Warren, J.H. Golbeck, G. Frank, H. Zuber and D.A. Bryant (U.S.A., Switzerland) 215

Pigment organization and energy transfer in green bacteria. 3. Picosecond energy transfer kinetics within the B806–866 bacteriochlorophyll *a* antenna complex isolated from *Chloroflexus aurantiacus*
K. Griebenow, M.G. Müller and A.R. Holzwarth (F.R.G.) 226

Report

Cytochrome *c'* of *Paracoccus denitrificans*
R. Gilmour, C.F. Goodhew and G.W. Pettigrew (U.K.) 233

Rapid Report

The isolated D1/D2/cyt *b*-559 reaction centre complex of Photosystem II possesses a serine-type endopeptidase activity
A.N. Misra, S.G. Hall and J. Barber (U.K.) 239

Review

The bioenergetics of neurotransmitter release
H.T. McMahon and D.G. Nicholls (U.K.) 243

Regular Papers

The behavior of a fast-responding barbituric acid potential-sensitive molecular probe in bovine heart submitochondrial particles
T.V. Tran, S. Allen and J.C. Smith (U.S.A.) 265

Antenna chlorophyll *a* has a structural role in stabilizing the functional conformation of P-700-chlorophyll-protein complexes
I. Ikegami and S. Katoh (Japan) 275

Reactivity of the *Bacillus subtilis* succinate dehydrogenase complex with quinones
E. Lemma, C. Hägerhäll, V. Geisler, U. Brandt, G. Von Jagow and A. Kröger (F.R.G., Sweden) 281

Restoration of thylakoid appression by Δ^3-*trans*-hexadecenoic acid-containing phosphatidylglycerol in a mutant of *Chlamydomonas reinhardtii*. Relationships with the regulation of excitation energy distribution
A. Trémolières, O. Roche, G. Dubertret, D. Guyon and J. Garnier (France) 286

A graph-theoretic analysis of metabolic regulation in linear pathways with multiple feedback loops and branched pathways
A.K. Sen (U.S.A.) 293

Characteristics of two atrazine-binding sites that specifically inhibit Photosystem II function
P.A. Jursinic, S.A. McCarthy, T.M. Bricker and A. Stemler (U.S.A.) 312

Large-scale purification and characterization of the five subunits of F_1-ATPase from pig heart mitochondria
D. Gagliardi, F. Penin and D.C. Gautheron (France) 323

A novel mechanism of cation/substrate cotransport: Na^+/H^+/adenosine cotransport in *Vibrio parahaemolyticus*
Y. Okabe, Y. Sakai-Tomita, Y. Mitani, M. Tsuda and T. Tsuchiya (Japan) 332

Transient induction of the mitochondrial permeability transition by uncoupler plus a Ca^{2+}-specific chelator
U. Igbavboa and D.R. Pfeiffer (U.S.A.) 339

Structural and functional characterization of subunits of the F_o sector of the mitochondrial F_oF_1-ATP synthase
F. Guerrieri, F. Zanotti, G. Capozza, G. Colaianni, S. Ronchi and S. Papa (Italy) 348

Rapid Reports

Long-wavelength chlorophyll species are associated with amplification of high-energy-state excitation quenching in higher plants
A.V. Ruban, D. Rees, G.D. Noctor, A. Young and P. Horton (U.K., U.S.S.R.) 355

Determination of the molecular size of the binding site for the manganese-stabilizing 33 kDa protein in Photosystem II membranes
M. Takahashi and K. Asada (Japan) 361

Cumulative Contents, Vol. 1059 365

Author Index 367
